SUMMARY

A passionate and goal-oriented Full Stack Web Developer with 3 years of experience in web development, specializing in Healthcare and Medical Technology applications. Skilled in Laravel, Livewire, and MySQL, with strong expertise in dashboard creation, responsive interfaces, and user-focused solutions. Dedicated to building scalable and efficient web systems that enhance user experience and operational productivity.

EXPERIENCE

Freelance Full Stack Web Developer | 2022 – Present

• Developed multiple full-stack web applications for healthcare, marketing, and e-commerce sectors.
• Designed and deployed responsive user interfaces with a strong focus on usability and performance.
• Built and optimized admin dashboards to simplify management operations and improve workflow efficiency.
• Integrated third-party APIs, implemented secure authentication, and optimized databases for speed and reliability.
• Collaborated with clients to translate business needs into fully functional web solutions.

PROJECTS

Physiotherapy Clinic Management System (Multi-Branch)
A full-featured management system for multi-branch physical therapy clinics. Includes patient management, appointments, therapists, inventory, and financial reports. Built with Laravel, Livewire, and MySQL.

Wa3yTherapy – Mental Wellness Platform
An online mental health platform connecting users with certified therapists for online consultations. Includes therapist profiles, booking system, chat sessions, and awareness articles.

Affalite Kseeb – Affiliate Marketing System
An affiliate platform that enables marketers to promote products, track conversions, and manage commissions with detailed analytics and real-time dashboards.

Coupon Primo – Coupon & Deals Platform
A platform for sharing promo codes and online deals with a merchant dashboard and SEO-optimized structure.

Clinic Management System
Web system for managing appointments, patients, doctors, and invoices, featuring medical history tracking and PDF report generation.

Affalite Souqelgom3a – E-Commerce Affiliate Platform
Affiliate integration system with e-commerce stores, featuring campaign tracking and sales

reporting.

Clinic & Beauty Care Landing Page
A visually appealing, responsive landing page for beauty and clinic services, optimized for lead generation.

WA Prime Platform – WhatsApp Marketing System
A WhatsApp automation and marketing solution integrating AI-powered auto-replies, analytics, and campaign tracking through Laravel and Baileys library.

EPCoupon – E-Commerce Coupons Platform
A coupons and deals management platform with merchant admin, filtering, and performance tracking features.
